

# ITTSTAR CONSULTING, LLC

Your Trusted Partner for Cloud & AI Excellence

## AI-Integrated Multi-Cloud Training Program

Be Certified. Be Empowered. Be Future-Ready.

### LAUNCH YOUR CLOUD & AI CAREER WITH ITTSTAR

Stop being limited to one cloud platform. Build expertise across AWS and Google Cloud—and become significantly more valuable to employers.

#### What You'll Achieve

- ✓ Master Amazon Web Services + Google Cloud Platform in one integrated program
- ✓ Earn dual certifications recognized globally
- ✓ Build job-ready portfolio with 4+ capstone projects
- ✓ Access of real AWS & GCP sandbox labs
- ✓ Join an exclusive alumni network for lifetime support

# WHY MULTI-CLOUD + AI IS A GAME-CHANGER

## The Market Reality:

- 90% of enterprises now use multi-cloud + AI strategies
- Demand for multi-cloud & AI expert professionals growing at 35% annually
- AI-powered roles command 40-50% salary premiums vs. traditional IT roles

## Your Competitive Advantage:

Unlike competitors who focus on a single cloud platform, ITTStar's integrated approach positions you ahead of the market. Build hands-on AI deployment skills and a portfolio that gets you hired—not just theoretical knowledge.

## WHY LEARN FROM ITTSTAR?

### Industry-Recognized Excellence

Official AWS Advanced Tier Partner

Trust + outcome: Taught by AWS-certified experts. Our Advanced Partner status means our curriculum stays current with AWS's latest technologies—keeping you ahead of the curve.

### Personalized Learning Experience

#### Live Mentor Sessions

Monthly sessions with industry tech leaders and architects

#### Small Cohort Sizes

Maximum 20 learners per batch for individualized attention

#### Hands-On Labs

Real AWS & GCP sandbox access for 12 months post-training

#### Job Support

Resume building, mock interviews, and placement assistance

#### Alumni Network

Lifetime access to community, resources, and job updates

## Complete Learning Package

- ✓ Hybrid delivery (in-classroom + virtual options)
- ✓ Flexible enrolment (start every month)
- ✓ One certification exam fee included per track
- ✓ Bonus add-on modules (FinOps, MLOps, AI Security)
- ✓ Free retake guidance for first certification attempt

# WHAT MAKES THIS TRAINING UNIQUE

## Integrated Multi-Cloud Pathway

Learn AWS and GCP together in a single, cohesive curriculum. Master both platforms to become truly cloud-agnostic—a rare and highly valuable skill. Or Competitive advantage:

Learn both AWS and GCP—not one or the other. Engineers who work across platforms command higher salaries and land better roles.

## Applied AI

Includes Python and ML foundations specifically for non-developers

## Hands-On AI Tools

Work directly with industry-leading tools:

1. AWS SageMaker for machine learning
2. GCP Vertex AI for generative AI
3. Chatbot APIs, NLP services, and image recognition APIs

## Industry-Designed Projects

4+ real-world capstone projects built with industry experts ensure your portfolio is job-ready from day one.

## Certification-Ready from Day 1

Our curriculum aligns precisely with AWS and GCP certification exams. You'll be exam-ready, confident, and employer-ready simultaneously.

## Confidence-building

4+ real-world capstone projects built with industry experts ensure your portfolio is job-ready from day one.

## YOUR NEW SUPERPOWERS AFTER THIS PROGRAM

- ✓ Design & Deploy cloud-based, AI-powered applications in production environments
- ✓ Automate Operations using CI/CD pipelines, DevOps practices, and MLOps frameworks
- ✓ Build & Scale machine learning models on SageMaker and Vertex AI
- ✓ Integrate AI Services including chatbots, NLP engines, and image recognition APIs
- ✓ Design Enterprise Architectures that are secure, scalable, and cost-optimized
- ✓ Lead Cloud Initiatives as a certified professional recognized by AWS and Google Cloud

# PROGRAM OVERVIEW AT A GLANCE

Track	Duration	Certification Included
Cloud Foundations	1.5 Months	AWS CLF-C02 / GCP Digital Leader
Cloud Developer	2 Months	AWS DVA-C02 / GCP ACE
Cloud Solutions Architect	2 Months	AWS SAA-C03 / GCP ACE
Applied AI on Cloud	2.5 Months	AI Practitioner / ML Associate / Gen AI Leader

Each track includes one certification exam fee (either AWS or GCP) along with personalized guidance and learning enhancements to help participants prepare confidently.

## Flexible Enrollment

Choose one track or bundle all four for comprehensive expertise.

## Mode

Hybrid (Classroom + Virtual access simultaneously)

## Start Dates

Every month with limited seats (maximum 20 per cohort)

## Note

Every month with limited seats (maximum 20 per cohort)
